

The Immunity Starter Kit - \$175

Help your body fight back

What is it?

Each product in this kit was formulated to help strengthen your immune response and better battle whatever life throws your way. Whether it's giving you a boost during times of sickness, or helping you prevent illness altogether, these products will give your body what it needs. It's time to be proactive in taking control of your immune system so you can live in confidence instead of fear.

This kit contains two of our signature drinks, CinnaMâte and Excell, which come in individualized drink packets, along with three of our encapsulated products SolleClear SI, NeuroIM, and our new plant-based vitamin D3/adaptogen blend LongeviD.

What does it do?

Our bodies have lots of natural defense systems in place and giving them the nutrients they need to optimize performance can have a big impact on our health. These products are designed to do exactly that, along with providing these same systems a boost when they are under attack.

How do I use it?

The daily usage of each of these products is described in the daily protocol, but here are some general tips to remember:

- Excell is great as a mix-in for your favorite smoothie.
- If you struggle with swallowing capsules, throw them in a blender with your favorite smoothie.
- During times of sickness, double up on the products by taking them both morning and evening.

Daily Protocol:

Morning - Noon

CinnaMâte: Mix one packet in 8 ounces of hot water for a great tea, or with 16-20 ounces of cold water.

SolleClear SI: Take 2 capsules with water or your favorite Solle drink.

NeuroIM: Take 2 capsules with water or your favorite Solle drink.

Noon - Afternoon

Solle Excell: Mix one packet in 16-20 ounces of cold water.

Evening - Night

LongeviD: Take 2 capsules.
